

# PSW ZONE MEET VALVE COVER RACING RULES

## Basic Rules

- Covers must have a minimum of three wheels with non-metallic surface contacting the track.
- Wheels can be attached to the cover in any manner; can not extend past front of the valve cover.
- Covers shall be based on an actual rocker cover from any automobile engine.
- Appearance alterations encouraged.
- 30 inch maximum length.
- 15 inch maximum width.
- 10 inch maximum height.
